

Write a non-chronological report e.g. leaflet, booklet, powerpoint, or a filmed documentary about some aspect of the water cycle, coasts or the Solar system.

Think of a question you would like to ask to a number of your family and friends about coasts or water. Examples could include: favourite coastal holiday resort, coastal regions that you regularly visit OR main uses of water in the home. Present your findings using one of the following: Carroll diagrams, block graphs, probability, frequency diagrams with tallying

Choose one of the following themes: bird-watching holidays; walking holidays; beach holidays; rock-climbing holidays. Research and investigate coastal environments around the UK relevant to the theme, you choose using maps, the Internet, atlases, non-fiction books.

How will you present your information?
The more creative the better!

Talk Homework

The effects of a changing climate can already be seen. Temperatures and sea levels are rising, ice and snow cover are declining, and the consequences could be catastrophic for the natural world and society."

Should we all change the way we live to stop climate change?

Spring Term HOMEWORK Class 4

Reading Challenge

Complete your Spring term reading challenge. Which books will you choose?

All sheets must be completed and signed by 29th March 2018.

Can you make a game relating to understanding human emotions. Will it be a board game, computer game, a quiz or a challenge such as hangman or jigsaw

Remember your spellings must be accurate!
