

Class 2 Topic Menu- Please choose at least 1 activity to complete per half term.

Outdoor learning

- Make your own spaceship and pretend you are an astronaut
- Build a rocket and launch it
- Re-create the surface of the moon with footprints in the sand.

(Class 2 would love to see these so use a camera to take photos too!)

Creative Writing

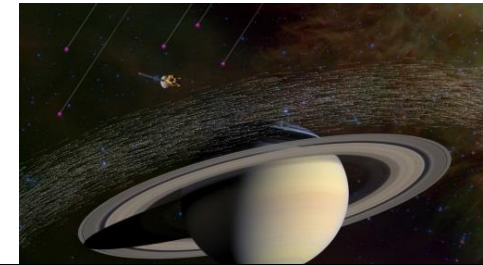

- Pretend you are an astronaut and write a diary of your adventure into space
- Write a space poem
- Write a character profile of an alien
- Write a list of items you would take into space

Maths

- Learn the days of the week and the months of the year. Sing them, shout them, whisper them then have a go at writing them.

Science

- Find out why astronauts float in space
- Find out why we have a day and a night
- Find out about the planets in our solar system and make a fact file

Design and Make/Music

- Make a model of a mini Solar System
- Make a moon buggy
- Draw or paint the Solar System or make a collage of it
- Make a 3D model of an alien
- Make a musical instrument and compose music with it
- Write some words to go with your music to create a song

Research

- Take a look at the NASA Kids' Club Website
- Look at the 'Earth and Beyond' section of the Children's University of Manchester website
